## **Summary of LPG Profile**

The salient points of LPG marketing as brought out in the LPG Profile for the period April 2021 -March 2022 (i.e. as on 1<sup>st</sup> April 2022) are as under: -

1. PSU OMCs (IOCL, BPCL and HPCL) together have 30.53 crore active LPG customers in the domestic category which are being served by 25,269 LPG distributors. The LPG coverage of the country estimated on the basis of active domestic connections and estimated households as on 1<sup>st</sup> April 2021 is around 99.8%.

The LPG coverage is calculated by PSU OMCs based upon the active LPG domestic connections and the estimated number of households. The number of households has been projected by PSU OMCs based on 2011 census data. Factors like increasing nuclearization of families, migration of individuals/ families due to urbanization and reduction in average size of households etc. impact the growth of number of households. Due to these factors, the estimated no. of households through projection of 2011 census data may slightly differ from the actual no. of households in a State/UT. Further, this methodology does not include PNG (domestic) connections.

2. PSU OMCs have a total of 202 LPG bottling plants all over India with rated bottling capacity of around 21.57 million metric tonnes per annum (MMTPA).
3. PSU OMCs sold nearly 28.58 Million Metric Tonnes (MMT) of packed domestic LPG during April 2021 -March 2022.
4. 158.4 lakh new domestic customers were enrolled by PSU OMCs during April 2021 -March 2022. During the same period, PSU OMCs have added 186 distributorships.
5. PSU OMCs have a total of 601 Auto LPG Dispensing Stations all over India for catering to LPG demand in the automotive sector.

## Parallel Marketing System (PMS) of LPG in India

- LPG marketing in India is carried out by public sector oil marketing companies (i.e. IOCL, BPCL and HPCL) as well as by private parties under the Parallel Marketing System (PMS). Under PMS, private parties can import LPG and market imported LPG in the country at market determined rates. No subsidy is available from Government for sales by PMS in the domestic segment.
- As per information received by PPAC from 98 parallel marketeers (PMs), they had sold 109.5 TMT during the month of March 2022 and 1157.1 TMT during the period April 2021 – March 2022. This amounts to a market share of 3.9% for PMs in total LPG sales. Out of the total LPG sold in the country, 86.4% was in the domestic segment, 12.4% in the commercial/bulk segment and balance 1.3% in the automotive segment. The market share of PMS was around 0.7% in the domestic segment, 19.7% in the commercial/bulk segment and 67.6% in the automotive segment during April 2021 – March 2022.
